

FerrOs – Clinician Scientist Position

- Goal:** Provide protected research time to clinician-scientists to identify mechanisms of iron regulation, liver-bone crosstalk and/or heterotopic ossification to strengthen translational aspects of FerrOs.
- Eligibility:**
- Applicants must be affiliated with FerrOs projects
 - Aim of the research grant must be in line with the FerrOs research aims (i.e. the identification and validation of associations between iron and bone metabolism, or to identify novel molecular targets for the treatment of iron and/or bone disorders)
- Funding:** Personnel costs for 12 months (according to DFG Personnel Rates 2022; Ä 1 Level 2 to Ä 2 Level 1)
- Application:** Project description (max. 1 page)
CV
Letter of motivation
- Evaluation:** Deadline: 30th November 2022
Evaluation will be conducted by the FerrOs Steering Committee
